

VACANCY

ENGINEERING MANAGER

About Lindi Jumbo Ltd

Lindi Jumbo Ltd is a leading Tanzanian graphite mining company committed to delivering excellence through sustainable mining practices and environmental responsibility. Based in the heart of the Lindi Region, we are proud to contribute to the socio-economic development of local communities while setting new standards in responsible resource extraction.

At Lindi Jumbo, we believe in innovation, collaboration, and creating lasting value for our stakeholders. As we continue to expand our operations, we are seeking passionate and skilled professionals to join our team and contribute to the success of our world-class mining project.

Position Overview

Are you a dynamic leader with a strong background in engineering management? Lindi Jumbo Ltd is seeking an experienced and forward-thinking **Engineering Manager** to oversee all aspects of engineering operations, ensuring reliability, safety, and efficiency in our facilities.

In this critical role, you will lead a multidisciplinary team of engineers, manage projects, and drive innovation to achieve optimal plant performance. Your technical expertise and leadership skills will play a vital role in supporting the company's operational objectives and sustainability goals.

Key Responsibilities

- **Engineering Leadership:** Provide strategic direction and leadership to the engineering team to support plant operations and company objectives.
- **Maintenance Management:** Oversee the planning and execution of preventive and corrective maintenance programs for all mechanical, electrical, and infrastructure systems.
- **Project Management:** Manage engineering projects, including new installations, upgrades, and expansions, ensuring timely and cost-effective completion.
- **Team Development:** Recruit, train, and mentor engineering staff, fostering a culture of innovation, collaboration, and excellence.
- **Regulatory Compliance:** Ensure all engineering operations comply with Tanzanian safety standards, environmental regulations, and company policies.
- **Budget Oversight:** Develop and manage engineering budgets, ensuring cost control without compromising quality and reliability.

- **Innovation & Optimization:** Drive continuous improvement initiatives to enhance plant efficiency, reliability, and sustainability.
- **Collaboration:** Work closely with operations, maintenance, and other departments to align engineering goals with organizational objectives.
- **Reporting:** Provide detailed reports on engineering performance, project progress, and maintenance metrics to senior management.

Key Requirements

Educational Background: Bachelor's degree in Mechanical, Electrical, or Civil Engineering (or a related field).

Experience:

- At least 7 years' experience in engineering management, preferably in the mining or heavy industrial sector.
- Proven track record of managing complex engineering projects and leading multidisciplinary teams.

Technical Expertise:

- In-depth knowledge of maintenance systems, project management, and engineering best practices.
- Hands-on experience with CMMS and modern engineering tools.
- Familiarity with graphite processing or mineral processing equipment is advantageous.

Skills & Attributes:

- Strong leadership and decision-making skills.
- Excellent problem-solving and analytical abilities.
- Effective communication and interpersonal skills.
- Ability to manage multiple priorities in a fast-paced environment.

Why Join Us?

- Lead a world-class engineering team in a progressive and innovative mining operation.
- Be part of a company committed to excellence, sustainability, and community impact.
- Enjoy professional growth opportunities and competitive benefits.
- Work in a collaborative and dynamic environment where your contributions matter.

Application Procedure

We value diversity and encourage all qualified candidates to apply through our recruitment portal at www.jobopportunities.net. Please submit a comprehensive CV, copies of relevant qualifications and certifications and details cover letter.

Application Deadline

The deadline for applications is **23 February 2025 @ 4:00 PM (EAT)**.
