

VACANCY

PROCESS MANAGER

About Lindi Jumbo Ltd

Lindi Jumbo Ltd is a leading Tanzanian graphite mining company committed to delivering excellence through sustainable mining practices and environmental responsibility. Based in the heart of the Lindi Region, we are proud to contribute to the socio-economic development of local communities while setting new standards in responsible resource extraction.

At Lindi Jumbo, we believe in innovation, collaboration, and creating lasting value for our stakeholders. As we continue to expand our operations, we are seeking passionate and skilled professionals to join our team and contribute to the success of our world-class mining project.

Position Overview

Are you a results-driven professional with a strong background in process management and optimization? We are looking for a dedicated **Process Manager** to lead and oversee the efficiency, quality, and safety of our production processes.

In this pivotal role, you will optimize our plant's performance, drive continuous improvement initiatives, and ensure compliance with all safety and environmental standards. Your expertise and leadership will be instrumental in achieving operational excellence and maximizing production efficiency.

Key Responsibilities

- **Process Optimization:** Monitor, evaluate, and enhance production processes to achieve optimal efficiency, output, and product quality.
- **Team Leadership:** Lead, mentor, and manage the process team to ensure high performance and alignment with operational goals.
- **Quality Control:** Implement and maintain quality assurance systems to ensure product consistency and adherence to specifications.
- **Continuous Improvement:** Develop and execute strategies for continuous improvement in processes, systems, and workflows.
- **Safety & Compliance:** Ensure strict adherence to health, safety, and environmental standards, fostering a culture of safety within the plant.

- **Data Analysis:** Analyze production data to identify trends, opportunities for improvement, and areas requiring corrective action.
- **Collaboration:** Work closely with cross-functional teams, including operations, maintenance, and technical departments, to align process objectives with company goals.
- **Reporting:** Provide regular reports on process performance, key metrics, and improvement initiatives to senior management.

Key Requirements

Educational Background: Bachelor's degree in Chemical Engineering, Metallurgy, Process Engineering, or a related field.

Experience:

- Minimum of 5 years' experience in a process management or optimization role, preferably within the mining or heavy industrial sector.
- Proven track record of leading process improvement initiatives.
- Overseeing Laboratory Operations will be an advantage.

Technical Expertise:

- Strong understanding of mineral processing techniques and equipment.
- Familiarity with process control systems and data analysis tools.
- Knowledge of graphite processing or similar mineral processing is advantageous.

Skills & Attributes:

- Strong analytical and problem-solving skills.
- Excellent leadership, communication, and decision-making abilities.
- Ability to work effectively in a fast-paced and dynamic environment.

Why Join Us?

- Work with cutting-edge technology and processes in a world-class mining operation.
- Be part of a collaborative and innovative team committed to excellence.
- Enjoy opportunities for professional development and career advancement.
- Competitive salary package and benefits, reflective of experience and expertise.

Application Procedure

We value diversity and encourage all qualified candidates to apply through our recruitment portal at www.jobopportunities.net. Please submit a comprehensive CV, copies of relevant qualifications and certifications and details cover letter.

Application Deadline

The deadline for applications is **23 February 2025 @ 4:00 PM (EAT)**.
